**Using Modern Technology to
increase student's knowledge
of Healthy Diet**

13 Maggio 2015, h. 14.30-18.30
Corso Trieste, 30
San Cipirello (PA)

Aims of the project

The key objective of the project is to provide teachers from all types of schools with knowledge and practical competencies in the field of dietetics, healthy nutrition and an active lifestyle.

Detailed aims of the project are:

- ⇒ to provide teachers from all types of schools with knowledge and practical competencies in the field of dietetics, healthy nutrition and an active lifestyle.
- ⇒ Improvement of the awareness concerning the importance of terms like dietetics, healthy nutrition and an active lifestyle of children and adolescents
- ⇒ Improvement of the level of practical knowledge concerning dietetics and health prophylaxis
- ⇒ Providing methodological training for participating teachers in order to carry out various educational activities in the field of dietetics, healthy nutrition and popularization of knowledge regarding a healthy lifestyle
- ⇒ Exchange and transfer of good practices among the partner countries
- ⇒ Diversity of partners' educational offer (e-course, e-publication)
- ⇒ Establishment of international collaboration

WORKSHOP

OBJECTIVES

- * Understand impact of technology on children
- * Pros and cons of modern technology on healthy food
- * To enhance students learning experience within technology.

Target group

Target group: Teachers from all types of schools

All adults interested in the subjects of the project are welcome.

Themes

Theory

- ⇒ An overview what the course entails.
- ⇒ The pros and cons of using technology.
- ⇒ How we can use technology safely and correctly when learning about healthy diets.
- ⇒ Tips and hints on getting the most out of modern devices.

Practice

- ⇒ Workshop discussions about impact of technology
- ⇒ Round the table group talks about how we think technology effects the learning capacity knows in today's society.
